

COLD, RAINY WEATHER WILL AID OFFICIALS

Cold Powerful Ally In Campaign to Suppress Live-Stock Epidemic

EXTEND QUARANTINE

Thirteen States Now Under Federal Quarantine—Bar Cattle Shipments from Canada

NO DISEASE SOUTH OF MENARD

Washington, Nov. 9.—Colder weather, with rain, in states infected with the foot and mouth disease was hailed by department of agriculture officials today as a powerful ally in their campaign to suppress the rapidly spreading livestock epidemic. Encouraging reports came from some sections during the day but news of more infected districts caused the department to extend the federal quarantine to include Delaware, New Jersey and Rhode Island and to bar cattle shipments from Canada.

Thirteen states are now under quarantine. While no cases of the disease have been found in Canada, the quarantine against the dominion is to prevent the return of affected cattle cars to the United States. It will stop shipments of cattle into the United States valued approximately at \$8,000,000,000 a year. Figures by the bureau of foreign and domestic commerce show that for the nine months ending with September imports from that country aggregated 114,792, valued at \$5,054,491. For the month of September, last, 26,796 head of cattle were imported, valued at \$1,076,216.

The effect on the meat situation in the United States of the Canadian quarantine cannot be estimated immediately according to department officials. It will depend upon whether imports from Canada have been for immediate slaughter or for fattening purposes. If most of the Canadian cattle are brought in for fattening, the shutting off of imports now would have no immediate effect upon the supply and price in this country as they would not be put on the market until late spring in any event. On the other hand, if the imports have been for immediate slaughter, the embargo will lose no time being felt.

Upon the receipt of reports today from field agents in Indiana and Michigan officials expressed the hope that the disease in those states had now been brought under control.

WATCHING FIFTY COUNTIES.

Springfield, Ill., Nov. 9.—That fifty Illinois counties are under observation at the present time by the state board of live stock commissioners where possible cases of foot and mouth disease was the statement made today by C. A. Lowery, secretary of the commission. Fifteen counties are already under strict quarantine regulations and the indications are that it will be necessary to add as many more to the list before the disease has finally been stamped out. The counties under quarantine are: Bureau, LaSalle, Cook, Kendall, Lake, Will, Champaign, Whiteside, Lee, Lane, Livingston, Iroquois, Mercer, Vermilion and Menard.

So far no trace of the disease has been found south of Menard county and the state live stock board hopes to prevent the disease from spreading to the southern part of the state. Friday night orders were issued to close the National Stock Yards at East St. Louis. All the cattle there at the time are held under observation and in case any trace of the disease is found the cattle in the yards at the time the closing order was promulgated will be destroyed.

MORE OF DISEASE IN IOWA.

Iowa City, Ia., Nov. 9.—The foot and mouth disease has invaded Johnson county. Three herds of cattle in Union township are afflicted. Dr. F. P. Edwards has established quarantine there. The herds are said to have come from Chicago.

STATE QUARANTINE ORDER.

Pierre, S. D., Nov. 9.—A general state quarantine order will be issued effective tomorrow stopping all importation of cattle into South Dakota until further notice to prevent possible entrance of foot and mouth disease into this state.

WHITE HOLDS WELCH TO DRAW.

Milwaukee, Nov. 9.—Freddie Welch of Wales, lightweight champion of the world was held to a draw in a fiercely fought ten-round contest here tonight with Charles White of Chicago.

FIREMAN'S ANNUAL DANCE.

The firemen of the city are preparing for their annual ball to be given in Armory hall Thanksgiving night.

MAKES ONLY CAMPAIGN PROMISE TO HIS WIFE

Progressive Also Prays to Get to Heaven and There Was No Chance of Going to Washington.

Washington, Nov. 9.—A promise to his wife to stay at home more at night and to prepare for the next world, was the only pledge made by Max M. Hunberry, defeated Progressive candidate for congress from the first Kentucky district. Mr. Hunberry filed his report here today, showing he neither received nor spent a cent.

"The only promise I made any living human being during the whole of my campaign," read the affidavit, "was to my wife, whom I did promise that I would be with her at least as much or more after the election than I had prior thereto and I did give her a little friendly advice, which was this: that we both pray earnestly to get to Heaven, as there was absolutely no danger of us having to go to Washington."

Representative Fitzgerald, of New York, democrat, reported he received \$235 and spent \$903 for his re-election. W. A. Rodenberg, of Illinois, Republican, who comes back to the next congress after defeat for re-election two years ago, reported he spent \$2,124 and received \$250.

FIRE ON BRITISH STEAMER REMBRANDT UNDER CONTROL

Ship Carrying Horses for French Army Catches Fire Below Decks.

New York, Nov. 9.—The wireless station at Sayville, Long Island, this afternoon picked up a wireless call for help from the steamship Rembrandt which reported that she was afire about 200 miles off Cape Henry. The Rembrandt sailed from Baltimore on Saturday for St. Nazaire, France.

Operators at the Sayville station said that they had been in communication with the Rembrandt several times since they received the first S. O. S. The operator on the Rembrandt said the ship was burning below decks and was in urgent need of assistance. He also said that she was steaming at full speed for the coast.

NOT IN NEED OF ASSISTANCE.

New York, Nov. 9.—The operators at the Sayville station reported late this afternoon that the operator on the Rembrandt had informed them that the crew had finally succeeded in getting the fire under control. The vessel, he added, was not in need of assistance.

CARRIES HORSES FOR FRANCE.

Baltimore, Md., Nov. 9.—The British steamer Rembrandt, Captain Edlin, had 800 horses on board for the French army when she sailed from here for St. Nazaire last Saturday.

She carried a crew of fifty men and is owned by the Lamport and Holt line.

ANN ARBOR BUSINESS MAN INCURS ENMITY OF STUDENTS

Pool Room Owner Alleged to Have Circulated False Reports Concerning Players.

Ann Arbor, Mich., Nov. 9.—Considerable excitement in resident quarters was caused today by a rumor that the proprietor of a local billiard hall had declared he could bribe Bill Back Malbetsch and Quarterback Huggitt of the University of Michigan football team to throw the game with Cornell next Saturday. The report was discussed freely on the campus and it was stated that police headquarters had about the billiard hall tonight to prevent possible trouble. A telephone message was received at police headquarters that angry students had threatened to damage the billiard man's property.

GREEK MINISTER AT WASHINGTON RECALLED

Minister's Differences With His Government are Over Internal Affairs Only.

Washington, Nov. 9.—The Greek minister, Mr. Schliemann announced today because of a disagreement with his government's policy, which made it impossible for him to carry out certain instructions, he had received from Athens, he had been recalled and that Mr. Vouras, former charge d'affaires, had been instructed to take over Greek interests here.

It was explained at the legation that the minister's differences with the government were over internal affairs only and that all parties in Greece were united in upholding the government's foreign policy. Mr. Schliemann will leave for Greece within a fortnight to become a candidate for member of the Chamber of Deputies, in which body he served for fifteen years previous to his appointment as minister to the United States. If elected he would be a member of the opposition.

An increase by nearly by one half in the population of the Kingdom of Greece due to the acquisition of the Balkan war, has made it necessary to increase the membership in the parliament, the election probably will be held in the spring. It is believed, Mr. Vouras, who has been connected with the Greek diplomatic staff in London, now is on his way to the United States.

ENTHUSIASM RUNS RIOT IN LONDON

Guild Hall Scene of Inaugural Banquet of New Lord Mayor, Johnston

GO BETWEEN RIFLEMEN

Diplomats and Statesmen Are Cheered as They March Between Lines of Riflemen

BALFOUR TOASTS "THE ALLIES"

London, Nov. 9.—Scenes of extraordinary enthusiasm were witnessed at the Guild hall tonight on the occasion of the inaugural banquet of the new Lord Mayor of London Sir Charles Johnston, who succeeded Sir Thomas V. Botwater. Addressing the gathering, which was held in the hall, he further announced that Turkey, by her entrance into the struggle had dug her grave and committed suicide.

Before the same assemblage, Field Marshall Earl Kitchener revealed the fact that there are a million and a quarter men now undergoing military training in England and he asked for more. Advices from South Africa say that the forces under Christian Beyers, one of the leaders in the revolt, have been dispersed in the Transvaal by government forces, losing nine men killed, more than that wounded and 364 prisoners.

They also report that the rebel general, De Wet, has defeated a government commando under Gen. Cronje and that Gen. De Wet's son has been killed.

Further disasters have occurred from mines in the North Sea, the Swedish steamer Atle having been blown up and six of her crew drowned and the Dutch fishing boat Poolster having met a like fate.

In Belgium all the railway employes have stopped work under orders from the Belgian government, thus bringing railway traffic to a complete standstill and interfering with the movement of German troops. The German authorities, it is reported, will replace the Belgians by Germans.

Santiago, Chile, reports that the British cruiser Glasgow and the Transport Otranto, neither of which had been reported since November 1, the date of the engagement between the British and German warships off the Chilean coast, are on their way through the straits of Magellan, bound for the Falkland Islands.

BASE BALL PLAYER DIES.

Philadelphia, Nov. 9.—Danny Green, at one time a star outfielder on the Chicago National and American League baseball teams, died today in an institution in Camden, N. J. While playing with the Philadelphia Athletics of the American Association several years ago Green was struck on the head by a pitched ball and never recovered from the effect of the injury.

CAPTAIN O'NEILL KILLED

London, Nov. 9.—Captain, The Honorable Arthur Edward Bruce O'Neill of the Second Life Guards and heir to Baron O'Neill, was killed in action in France last Friday. Captain O'Neill was the unionist member of parliament for Mid-Antrim and was the first member of the lower house of parliament to fall during the present war.

TO PROTECT TOURISTS.

San Francisco, Nov. 9.—Another step for the protection of visitors to the Panama-Pacific exposition was taken today when hotel men representing four different hotel associations unanimously adopted the following resolutions:

"Resolved that any hotel or restaurant or taxicab company which practices or permits extortions or abuse of position visitors is a menace to the interests and a danger to the reputation and credit of San Francisco, and California."

War News Summarized

So far as is disclosed by the official statements the situation in the war theatres both east and west, remains virtually unchanged.

In Belgium and northern France the allies and the Germans apparently take turns in assuming the offensive while both sides are bringing up reinforcements and preparing themselves for the decisive struggle which is predicted for an early date.

In the east the Russian hosts according to the Petrograd announcement, are still driving the Germans and Austrians in front of them.

England's attitude and determination to continue the bitter struggle until all the demands of the allies are satisfied were strongly set forth by Premier Asquith at the Lord Mayor's banquet at London. The Premier made the declaration that Great Britain would not sheath the sword until Prussian military domination was destroyed, and he further announced that Turkey, by her entrance into the struggle had dug her grave and committed suicide.

Before the same assemblage, Field Marshall Earl Kitchener revealed the fact that there are a million and a quarter men now undergoing military training in England and he asked for more.

Advices from South Africa say that the forces under Christian Beyers, one of the leaders in the revolt, have been dispersed in the Transvaal by government forces, losing nine men killed, more than that wounded and 364 prisoners.

CARRANZA ORDERS CONVENTION'S CLOSE

Publishes Decree Ordering Aguas Calientes Gathering Virtually Dissolved

ORDER IN EFFECT TODAY

General's Decree Requires All Generals In Attendance to Report to Commands by Today

GUTIERREZ SWORN IN TODAY

San Antonio, Texas, Nov. 9.—General Carranza published a decree in Mexico City today ordering the Aguas Calientes convention virtually dissolved by November 10th, according to a dispatch received here today from R. L. McCleary, chief of the Carranza publicity staff, in Mexico City.

The decree ordered all generals who are in attendance in person to report to their commands not later than November 10, at six o'clock in the afternoon. All officers of lesser rank than general who are representing superior officers are to report to the first chief or their own respective commanders. The army corps, whose commanders have disavowed the first chief, have been notified that the officer next in charge will assume command at once and report by telegraph to the first chief as soon as possible. The decree adds:

"The officers are to elect another general and report the result to Carranza."

Situation Getting Serious.

Washington, Nov. 9.—Administration officials admitted tonight that the Mexican situation had again assumed a delicate aspect. General Carranza has partially fulfilled the Washington government's request for guarantees before withdrawing the American troops from Vera Cruz but his decree does not satisfy the main point asked for by the United States, that Mexicans who served the American government during the occupation of the port, be not punished subsequently for such service.

At six o'clock tomorrow night Gen. Eulalio Gutierrez, selected by the convention at Aguas Calientes, will be sworn in as provisional president of Mexico. Carranza has been informed by a special committee selected by the convention several days ago that hostilities against him as a rebel will begin at once if he does not recognize the authority of Gutierrez.

On account of the brevity of Carranza's tenure, the American government in all probability will take no cognizance of the decree which he is reported to have issued respecting the American occupation of Vera Cruz. Gen. Gutierrez already assured agents of the United States government that when he is sworn in he will issue a proclamation covering all points desired by the American government.

General Villa has stated that he will back up Gutierrez in such proclamation.

A difficult situation may arise, however, if, as is generally expected in Washington, Carranza defies the convention and armed conflicts between his forces and those under the control of the convention ensue. Gen. Candido Aguilar, in command of the state of Vera Cruz, is loyal to Carranza. With unrest inspired by Carranza through the issuance of circulars, and petitions calling on the American forces to withdraw, officials realize that the situation at Vera Cruz might become strained at any moment. Army officers scoff at the idea of an attack by Aguilar's forces as has been rumored recently as General Funston has a larger body of men than Aguilar and is under the protection of American warships, which could shell an enemy ashore without difficulty.

In some official quarters here there is a feeling that General Carranza, realizing that the bulk of the army is against him, will not oppose the convention's orders.

New Cabinet Appointed.

Gen. Eulalio Gutierrez who was appointed provisional president of Mexico by the Aguas Calientes convention, has proclaimed himself the chief executive beginning November 10 and has appointed the following cabinet to act with him:

Foreign minister—Fernando Iglesias Calderon.
Minister of communications—General Antonio Allaireal.
Minister of war—Gen. Juvenel Robles.
Minister of the interior—General Jose Blanco.
Minister of public instruction—Signor Soto Y. Gama.
Minister of justice—Jose Vasconcelos.
Minister of progress—Pastor

Sterling was in the city Monday on her way to Springfield, where she will present reports on the public health work.

Wednesday afternoon the Rev. M. L. Pontius will go to Springfield, appearing on the program in the evening with an address, "The Challenge of the New Age."

To Present Survey Report.

Among the important subjects to be brought to the attention of the Federation will be the report of the state anti-tuberculosis survey committee of which Dr. Josephine Milligan, this city, is chairman. Dr. Milligan will give her report Thursday afternoon at 1:30 o'clock. Mrs. Milligan and Dewey were in Springfield Monday arranging an anti-tuberculosis exhibit which will be shown in connection with the report Thursday.

RETURNS INDICATE ELECTION OF CHIPERFIELD AND WILLIAMS

J. McCan Davis Declines to Admit Defeat, Declaring Official Returns Give Him Plurality of 3,235 Over Williams.

Chicago, Nov. 9.—An unofficial count of all but Bureau, Ford and Saline counties tonight indicated that one Republican and one Democrat congressman-at-large had been elected from Illinois.

Burnett M. Chipierfield had a lead of 12,750 over William E. Williams, Democrat and Williams was 4,716 votes ahead of J. McCan Davis, Republican.

Declines to Admit Defeat.

Mr. Davis declined to admit defeat however and in the following statement declared that official returns gave him a plurality of 3,235 over Williams:

"I am in receipt of official returns on congressman-at-large from every county in the state exclusive of Cook and accepting the unofficial returns in Cook county as correct I am elected beyond doubt by a plurality of 3,235 over Williams. I do not expect the official canvass in Cook county, now in progress to make any material change in the vote."

Unofficial Total for 99 Counties.

Chicago, Nov. 9.—The totals for 99 counties, unofficial vote for congressman-at-large is:

Williams, democrat 358,264
Sullivan, democrat 333,863
Chipierfield, republican 370,114
Davis, republican 353,648

GERMANS RENEW YPRES OFFENSIVE

Start Another Attempt to Break Allied Line and Gain Coast of France

IS NO DECISIVE ACTION

Each Side Makes Slight Gains But No Decisive Action Is Fought Along Whole Front

BOTH FORCES ARE SATISFIED

London, Nov. 9.—The Germans have renewed their offensive in the vicinity of Ypres and Dixmude, where several previous attempts to break through the Allied lines and gain the coast of France have been repulsed after the most severe fighting of the war.

Despite the reverses which the Austro-German armies have suffered in the east, where the Russians have now set their feet in German territory, both in East Prussia and Posen, the German are said to be still sending reinforcements to the west in an endeavor to break down the resistance of the French, British and Belgians who have been holding their positions and have in places made small but important advances.

There has, however, as yet been no decisive action fought along the whole front but each side is making gains which may count when the crisis is at hand. With the tremendous forces opposing each other any progress must necessarily be slow in these days of siege battles, but both the Allies and the Germans express satisfaction with the way in which the battle has gone thus far.

In the east the Russian advance guards are now fighting on both the East Prussian and Posen borders and it is believed that the Germans have given up their first plan of offering resistance to the Russian advance on the positions which they had prepared along the Warthe river.

Russians Suffer Reverse.

According to the German report, the Russians have suffered a reverse on the East Prussian frontier, where they lost 4,000 men and some machine guns, but of the fighting elsewhere in this region, Berlin says nothing.

There have been no developments in the Near East, the engagements fought being between Russian and Turkish frontier guards in the Caucasus or the bombardment of ports.

The slackness in the recruiting in England has been given a fillip by the marches of some of the crack territorial regiments and today's processions through the streets of London in connection with the inauguration of the Lord Mayor, in which the Canadian and other Dominion troops took part. From all sections of the country come reports of an increasing number of young men offering themselves "for service."

EASTERN FIRM GETS ORDER FOR TWENTY SUBMARINES

Quincy, Mass., Corporation Receives \$10,000,000 Order from Unknown Power.

Boston, Nov. 9.—An order for the immediate construction of twenty submarines has been placed with the Fore River Ship Building corporation of Quincy, it was learned today. Officials of the plant refused information as to the identity of the power for which the submarines are intended. An officer of the corporation said the order would amount to about \$10,000,000.

The order came to Quincy through the offices of the Bethlehem Steel corporation at South Bethlehem, Pa.

The submarines are not to be turned out as completed vessels but as finished sections which easily can be assembled.

♦♦♦♦♦ THE NEXT CITY ELECTION. ♦♦♦♦♦
By Dr. E. F. Baker.

♦♦♦♦♦

As the smoke of the 3rd of November election clears away, will it not be well to do a little clear thinking on the problems of the City Election that will be held next April. The Commission Form of Government has been on trial four years and as compared with the old Aldermanic form, with its committees and scattered and diffuse and divided responsibilities and Mayorality votes, I think we do not want to go back to the old form. The form is all right and readily adapts itself to the latest advances in city affairs namely, the General Manager, the real business of the city is embraced very largely in what we term engineering, the general engineer can manage the electric lighting, the water supply, the street paving and all public works of every kind. A general manager can be hired by the Council to carry out the work proposed by the council. General Manager will cost a good salary. It is said Hannibal pays \$5,000, one of the best engineers in the country as a general manager and finds it splendid investment. Our present city council voted themselves salaries for the five men as follows, Mayor, \$2,000; each commissioner \$1,700 per annum, making a total of salaries to the council of \$8,800 per year. We find in former years including the administration of Mr. Bancroft, Mr. Widmayer, John R. Davis, three terms, salary of the Mayor was \$1200, and that of alderman was \$72.00 per year making a total of salaries for Mayor and 12 aldermen, \$2,064, as against \$8,880, paid the present city council. The burdens and duties of the present City Council are the same burdens and duties of former administrations. The labors and burden of public business has not increased but the salary has been increased to more than four times the amount of former years. Was the public consulted? Yes, in a way, they consented by not filing a protest under paragraph 48 of the law creating commission form of Government; which provides for a referendum of any ordinance passed by the council to the people for a vote before it shall become a law. The people simply consented to the salary ordinance by not requiring a referendum provided for them by the law. The people can secure the repeal of this salary ordinance at next spring's election by requiring all candidates to publicly pledge themselves to its repeal and to pass a salary ordinance that will allow for the salary of a general manager, a competent engineer by reducing the salary of the council members. Say a competent general manager may cost \$5,000, this would leave \$3,800 to be divided among the council; which would give to the Mayor \$1200, and to each Commissioner, \$650, and at the same time not exceed the present salary pay roll. A general manager would take the work off the hands of the commissioners and Mayor very largely leaving them a legislative affairs trusteeship and the halo of office. Who says cheap men are the trustees of Illinois College, the Women's College, the Illinois University of Urbana, the trustees of all the great universities of the country as well as the school boards, directors, the whole school system of the United States, also all bank directors, with the great responsibilities and personal liabilities that attach, are all non-salaried positions, absolutely no salary attached, are these "cheap men"? Mayors and Aldermen have served the city in the years that have passed on very small salaries. Public service for the public good, civic pride, have actuated men and do still actuate men. Why not avail ourselves of these public spirited citizens? Where such men as E. S. Greenleaf, J. T. King, John D. Loar, Dr. J. P. Wiliard, John Hopper, Thomas S. Knoles, Joseph Tomlinson, John R. Davis, Chas. Widmayer, Horace Bancroft, these men who have served the city as mayor are certainly not cheap men, none of them ever received more than \$1200 per year and several much less. Such men as F. G. Farrell, John W. Hall, W. C. Carter, T. H. Rapp, Wm. E. Capps, E. C. Kreider, Dr. Chas. Henry, I. C. Coleman, Samuel T. Anderson, Abram Wood, Prof. Bullard, Daniel Bahan, Joseph D. Goveia, these men have served as aldermen at a salary less than \$100 per year and certainly not "cheap men."

The law of 1910 under the Commission Form says—Where the population is over 15,000 and not over 20,000 the salary shall not exceed \$2,000 for mayor and shall not exceed \$1700 for each commissioner, this is the maximum salary because the law says that shall not exceed. Any greater rate would be a violation of law but no forced construction of the law will hold that a less salary may not be fixed. That it can be fixed at any figure less as shown by the provision in

the referendum. Where a majority vote of the people kills any ordinance objected to or protested. Under the initiative clause of the law the present salary ordinance may be done away with by a petition signed by 25 per cent of the voters filing a new ordinance embodying the changes desired, and the Council must pass it or submit it to a vote of the people.

The law does not require the mayor and council to give all their time to the duties of their respective offices as a faithful discharge thereof may require. "Provided, in cities of 20,000 or over they shall devote at least 6 hours daily to the discharge of their duties but in Jacksonville such time only as a faithful discharge of the duties require and they themselves are the judges of what time is required. Why not elect men to the Council that are not concerned about the amount of the salary but are willing to do a lot of work purely for the good of the city. Pay out your money for expert services and not to men who have no special qualification for the work the city has to do. A city manager must be an expert engineer. He to be secured by the council, paid a salary agreed upon, carry out those works under the direction of the city council, to be responsible of the city council, in the discretion of the council.

There is no question that good men can be found in this city who will accept these duties without much consideration as to the size of the salary. The time required has in former years when the meetings of the city council which was uniformly held in the evening after all business hours, a much better time for deliberation of this time than the 10 o'clock a. m. hour of the present council. The law required one meeting per week, the rest of the time members of the city council would have to devote to their own private interests, with a city manager, an expert fully qualified, managing in his own competent way, the chief business of the city which would all be done under the supervision and direction of a trained expert instead of work being done under the management, with a good handshaker, a man with a pleasant smile and known as a vote getter. Such have been our stepping stones in the past to preferment in the council of the city. Can we not accomplish more with the same money, or with less by inaugurating a change along these lines to do that will be necessary to think it over between now and next April.

FUNERALS

Ault.

The funeral services for Mrs. Joaquina Ault were held at 2:30 o'clock Sunday afternoon in the undertaking parlors of W. W. Gillham and were conducted by Rev. Myrra L. Pontius, pastor of the Central Christian church in the presence of a large gathering of relatives and friends of the deceased. The singing of hymns appropriate to the occasion was by a quartette consisting of Miss Edith Carlson, Miss Cora Graham, C. L. Mathis and W. W. Gillham.

The bearers were Edward, Joseph and Arthur Maines, Lloyd Vasconcellos, Earl Garden and John Baptist. Interment was made in Jacksonville Cemetery.

END OF THE EARTH.

The Latest Figuring Puts It Only Two Million Years Away.

Scientists tell us that life on the earth began about 2,000,000 years ago. It has generally been accepted that life will last for 95,000,000 years.

Ninety-five million years is a fairly long time. None of us who are alive today need worry about what will take place 95,000,000 years hence. Even the most altruistic can scarcely be inspired by love for an inconceivably remote posterity.

But the French savants are altogether disturbing. Here comes one, M. Verronet, who says that the earth will permanently freeze within the next 2,000,000 years and that life will vanish. This is bringing the tragedy nearer home. We would gladly accept the older reckoning.

Verronet places mankind of today about midway between the beginning and the end. He computes that in the future life will exist as long as it has already existed. He specifies only one forty-eight as long a life as those who have studied in the past.

There is only one consolation to be derived from the Verronet reckoning. As far as the influence of today is concerned 2,000,000 years is as good as 95,000,000. In either event those who are comfortably laboring today cannot expect to be lovingly remembered when the cataclysm of ice makes the earth a barren wilderness.—Cleveland Plain Dealer.

HIS TWO TENSE MOMENTS.

One Was a Ninth Inning and the Other at a Dinner Table.

I heard a prominent Cambridge man tell of the two most tense moments of his life yesterday. But the tension in each case was different.

"I doubt if I ever shall forget either occasion," he said reflectively. "They were big moments."

"The first was when I was in college. I was captain of the baseball team that year. We came to the end of the ninth. We needed one run to tie the score and another to win the game. Two men were down and two on the sacks when I came to bat. And for once in my career I did it. I lined out a three bagger, right over the railroad track. When I felt it go—well, that was one occasion."

"And the other?" He chuckled, but a slow flush crept over his cheeks. "It was thirty years ago, soon after I left college. I went over to see a girl I thought was pretty nice and to meet her folks for the first time. I went on a Sunday. All the men were away. And they had duck for dinner." He stopped. "Ever carve a duck?" he asked meaningly. "No, neither had I before. Nor have I since." His flush deepened. "I never even went to see that girl again," he added plaintively.—Boston Journal.

Men and Oaks.

Once as I was botanizing under an oak I found among a number of other plants of similar height one that was dark in color with tightly closed leaves and a stalk that was very straight and stiff. When I touched it, it said to me in firm tones: "Let me alone. I am not for your collection, like other plants to which nature has given only a single year of life. I am a little oak."

So it is with a man whose influence is to last for hundreds of years. As a child, as a youth, often even as a full grown man—nay, his whole life long—he goes about among his fellows, looking like them and seemingly as unimportant. But let him alone. He will not die. Time will come and bring those who know how to value him.—Schopenhauer.

View From Mount Rigi.

The mountain of the Rigi, in Switzerland, commands a panorama of 400 miles in circumference, which includes the lovely lake of Lucerne, and is unsurpassed for beauty. The Rigi was known to only a few travelers in the eighteenth century, but after the peace of 1815 it became a resort for the curious, the first dwelling having been erected in 1814. Now many hotels are in a flourishing condition, and it is popular even in winter. There is a little chapel, with its walls covered with votive tablets, for many have been the victims in the ice gorges of this lofty peak.

Pipefish.

The pipefish take care of their young in a manner that is entirely peculiar. The newly laid eggs are taken care of by the male, which has a sort of fold on each side of its body. Beneath the "flaps" he keeps the eggs until the young are hatched and sufficiently grown to take care of themselves. While in the "flap" they are fed by the mother, upon whom falls the duty of foraging around for food.

No Postmortem Touch.

"Loan me \$5 until Thursday, old man. If I live till then I'll surely pay you."

"All right. But if you succumb don't send anybody around to touch me for the funeral expenses."—Seattle Post-Intelligencer.

SHERIFF ELECT GRAFF MAKES APPOINTEES NAMES KNOWN

Selects Deputies Who Will Assist at Court House and Jail During His Term.

Sheriff elect Grant Graff has definitely settled upon the appointments he will make when he assumes the duties of his office, December 7th.

W. C. Green and Harry Smith, the latter now with the Jacksonville Railway and Light company, will be the office deputies and Ben C. Andrews and Harry Norris will be the riding deputies. Howard Wannamaker is to become the janitor of the Court House and Charles Jackson will be his assistant. At the jail, S. M. Hussey will be the turnkey and Mrs. Hussey will also live there. They are well known residents of the Pisgah neighborhood. Howard Wannamaker was janitor at the court house some years ago and is at present sexton of the Jacksonville cemetery and Chas. Jackson has for years been in charge of the clean-up work around the public square. The men selected are well qualified for the work and will no doubt fill the positions with acceptance.

The announcement of appointees by Mr. Graff will set at rest a great many rumors with reference to possible appointments. There has been some question raised as to the authority of the sheriff to name the janitor and assistant janitor at the court house, as there has been some belief that the county commissioners under the law are custodians of the court house and have authority to name the men to take care of it. However, according to States Attorney Tilton it is a well established fact that the sheriff is the custodian of the building. The question was raised some years ago when Charles Widmayer was sheriff as to whether he or the commissioners had charge of the court house property. Mr. Widmayer at that time desired to name some one for janitor who was not satisfactory to the commissioners. A legal opinion was secured at that time and Mr. Tilton also states that the supreme court has ruled on the matter in some other case and that the sheriff is legally the custodian of the court house property.

BYRON GRAFF WILL HAVE POSITION IN SPRINGFIELD

Is to Be an Assistant in Office of State Treasurer.

According to report Byron Graff will be one of the assistants in the office of the state treasurer when Andrew Russel assumes the duties of that office next January. Neither Mr. Russel nor Mr. Graff has made any statement about the matter for publication but it is nevertheless generally reported that the appointment has been agreed upon.

WILL GIVE BENNETT BALL.

Members of Cigar Maker's Union 114 will give a benefit ball tomorrow night at Dege's hall. The committee of arrangements has secured an excellent orchestra and a fine program is promised. Tickets can be secured from the committee or other members of the union. You are cordially invited to attend.

Fourteenth Successful Year in Jacksonville. Consultation and Examination Free

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL?

Tired in the morning? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain of hands and feet? Have you a dull, dragging pain of ache of the body, back or limbs? Have you Rheumatism? Have you Piles? Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or limbs? Have you any blood disease—scrofula, skin eruptions, pimples, bone pains, pale complexion and losing weight?

I invite you to call and investigate the Carson System of the treatment of Chronic Disease, which I have perfected after 15 years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT. Come early as persons are always crowded.

A friendly call may save you future suffering. It has made life anew to thousands who had been pronounced beyond hope.

It Rained Stars.
In "North Africa and the Desert" the author tells of a wondrous spectacle he witnessed while traversing the desert toward Toungourt. He says: "Then in the last half hour I witnessed a strange phenomenon. The whole sky was powdered with stars; I had never seen such a myriad glimmer and glow, thickening, filling the heavenly spaces, innumerable, and all at once they seemed to interlink, great and small, with rays passing between them, and while they shone in their places, infinite in multitude, light fell from them in long lines like falling rain down the whole concave of night from the zenith to the horizon on every side. It was a Niagara of stars. The celestial dome without a break was sheeted with the starry rain, pouring down the hollow sphere of darkness, from the apex to the desert rims. No words can describe that sight as a mere vision; still less can they tell its mystical effect at the moment. It was like beholding a miracle. And it was not momentary; for half an hour, as we drove over the dark level, obscure, silent, lonely, I was arched in and shadowed by that ceaseless, starry rain on all sides round, and as we passed the great twin lights of the gates and entered Toungourt and drew up in the dim and solitary square it was still falling."

Coal and Smoke.

Smoke is caused by failure to burn the combustible gases that arise when fuel is exposed to the flame. The editor of Power describes these gases as "a complex mixture of various hydrocarbons, from some of which carbon separates on cooling in the form of lampblack or soot. The smoldering fuel also give off tarry vapors, which condense and help to gather the carbon particles into flakes or 'smuts'."

"For the burning of these gases as they are evolved from the coal three conditions must exist: Air must be supplied above the fuel bed, the temperature must be high enough to insure ignition and there must be time or space for combustion before the mixing currents of gas and air are cooled by flowing into or among the tubes of the boiler."

Firing coal in large quantities produces so much gas that neither air supply nor combustion space is great enough for its burning. Therefore coal should be put on in small quantities at frequent intervals.

Secret Writing.

The ordinary solver of a letter or document in secret writing should remember that success in this direction, as regards almost every kind of cryptogram, depends to a great extent upon the knowledge of how often each individual letter of the alphabet is used in ordinary speech or correspondence.

D, h, o, e and u are in third place as regards ordinary use; t, s, a, i and r are in second place, being used a very little oftener; l and m are in fourth place, with f, g, y, v, p and b close afterward; j and k are not common as compared with the rest, while z, q and x are used least of all.

The letter e is in first place, being used far oftener than any other letter in the English language, and once the "e" is found and the letters that hold second place discovered in their proper order, the solution is certain.—London Answers.

The Headman's Ax.

In days gone by the London public were always made aware by the manner in which the "headman of the Tower" carried the ax whether the prisoner, who marched immediately following him in the procession to and from the place of trial, had been sentenced to death or not, for as long as the prisoner had not been convicted or condemned to lose his life the ax pointed forward as it was borne before him by the headman. But from the very moment that capital punishment had been decreed against him the edge of the ax pointed ominously his way.

St. Helena.

One of the peaks of the island of St. Helena bears a distinct resemblance to the great Napoleon, so distinct, indeed, that in the old pre-Suez days passengers on ships bound from India to England were wont to crowd the decks at sunset in the hope of catching a glimpse of the marvellous likeness of the emperor whose facial contour used to appear every evening clear cut in the last rays of the sun.

Time's Changes.

"You don't seem to hold me in the same regard that you did when you married me," said the sentimental woman.

"You must remember," replied her tactless spouse, "that you don't look the same as you did then. Fashions change so remarkably that I don't see how any man and woman can feel really well acquainted."—Variety.

MORTUARY

Hart.

Mrs. Annie J. Kislengbery of East State street, yesterday received notice of the death of her only brother, Thomas A. Hart, who recently passed away after a brief illness from the effects of pneumonia, at his home in Providence, R. I., at the age of 88 years. He was born in Oxford, England where he received his literary education and grew to manhood. While yet a young man he came to America and settled in the city of Providence where he found employment with the firm of Cleveland Bros., cabinet makers, with whom he continued until some years since when he retired from active business. After a few years' residence in this country Mr. Hart was married and to this union was born four sons and two daughters. His wife and three sons preceded the husband and father in death some years since. He is survived by two daughters, one son, several grand children.

The sister, Mrs. Kislengbery of Jacksonville, is the only one left of the English branch of the family and she and her brother Thomas will be the only ones to be laid to rest in America, the land of their adoption.

Matheson.

Mrs. Neil Matheson passed away at her late residence in Chicago Sunday, following several weeks illness. She was born in Auburn, N. Y., in 1841, her maiden name being Susan Adele Whitney. She was married to Neil Matheson in 1876 and they were the parents of three children. Her husband survives her and two children, Mrs. A. E. Paffie and John Matheson of Chicago.

For a great many years the family resided in Jacksonville. Mr. Matheson being a member of the firm of Wadsworth-Matheson Hardware company at one time, located where the Woolworth ten cent store is now. The family has resided in Chicago for a number of years. Mrs. Matheson was a member of the Presbyterian church and a woman of culture and broad sympathies.

The body arrived here Monday evening at 8 o'clock and was taken to the home of Mrs. Mary Slaughter, 221 East College street. The funeral will be held this afternoon at 2:30 o'clock and interment will be made in the Jacksonville cemetery.

Ryan.

Miss Anna E. Ryan died at Our Savior's hospital Sunday night at 11 o'clock. Her final illness was of a weeks duration and she underwent an operation Saturday morning.

Miss Ryan was born May 4, 1875, near Franklin, and was a daughter of Patrick and Winnifred Ryan. She is survived by her mother and the following brothers and sisters: Jerry, Thomas, Lawrence, Owlie and Martin Ryan, who reside near Franklin; Mrs. Kate Popejoy of Rattoon, N. M., and Miss Kate Ryan of this city. Deceased had been a resident of Jacksonville for about five years and had a host of friends. Arrangements for the funeral have not been completed. Burial will be made in Franklin.

Smith.

John D. Smith, aged 70 years, one month and fifteen days, died at a local hospital Monday morning at four o'clock after an illness with organic heart disease.

The deceased was born in Beardstown September 14, 1844, and was a carpenter by trade. He was married in Beardstown and is survived by his widow and one sister, Mrs. A. B. McCune of this city. He is also survived by a step-daughter.

The remains were taken to the Gillham undertaking establishment and this morning will be taken to the residence of Mrs. Roy Conkle, a relative, 731 South West street, where funeral services will be held Wednesday afternoon at 2:30 o'clock in charge of Rev. Percy W. Stephens, pastor of the First Baptist church. Interment will be made in the Jacksonville cemetery.

AUTOMOBILE AND BUGGY COLLIDE ON STATE ROAD

C. N. Kinnett and Family Have Narrow Escape When Rig Was Hit by Machine.

Mr. and Mrs. C. N. Kinnett and Miss Dollie Hopper, a sister of Mrs. Kinnett, who were coming to Jacksonville Sunday morning at 7:15 o'clock, had a narrow escape from death when the rig collided with Dr. B. S. Gailey's automobile near the residence of Andrew Bacon. Mr. Kinnett was out at the side of the road and as the car approached his wife shouted, "I believe that automobile is going to strike us," at the same moment Mr. Kinnett became excited and pulled the wrong line, guiding the horse right up against the car. The impact of the car turned the animal backward in the air and at the same moment Miss Hopper was thrown violently from the buggy. Mr. and Mrs. Kinnett being able to retain their places. The machine went 100 yards before it was stopped.

Miss Hopper had her face cut in a number of places and was bruised about the body. She and Mrs. Kinnett were taken home by Dr. Gailey. The cross bar of the buggy was broken and the shafts were twisted badly. The horse managed to extricate itself from the buggy and was not found until three hours later in a stubble field belonging to Andrew Bacon. The line, part of the breeching and the blinds to the bridle, were the only parts of the harness which could be found. Strange to say, that the horse showed no bruises and seemed to be as sound as ever.

Dr. Gailey had three or four people in the car and none of them were hurt. The car was slightly damaged by the impact. Taking everything into consideration, it was almost miraculous that no one was seriously injured.

CRATER LAKES.

Easter Island Has a Wonderful One, and So Has Java.

Wonderful lakes are often found inside the craters of volcanoes. One of these can be seen upon Easter Island—the island which bears wonderful remains of an unknown ancient people. Inside a crater is a lake, near the borders of which lie several unfinished crowns composed of tufa, evidently destined for the huge figures on the shores of the island, but never completed. And on this lake float many waterfowl, one of which is said to be a goose unknown to science.

Another curious crater lake existed until recently within the icebound crater of a volcano in New Zealand. The water was heated to boiling point, but a short time ago an eruption of more than common violence tossed the whole lake into the air.

A most interesting crater lake can still be seen in Java in the volcano of Papandajan, and it is possible to enter the crater and gaze down on the scene below. Standing on the rim, one can see the vast seething mass of boiling mud. Every now and then a wave of mud moves heavily along the sides of the chasm, only to fall back into the molten mass, and here and there columns of sulphur thrown out of the lake of mud are gradually forming walls. It is indeed pleasant to escape from this dismal inclosure to breathe the free air once more.

ISOLATED ISLANDS.

Lonely Tristan da Cunha Gets Outside News Once in Two Years.

Though scientific progress has made it possible to do a double journey between England and America in a fortnight, there remain many islands with which it takes years to communicate.

Off the Scottish coast are the groups of islands known as the Hebrides, Orkneys and Shetlands. Of these the most isolated island is St. Kilda, some three miles long and two miles broad. The inhabitants lead lives of great loneliness, for it takes a month to get to the next island, and the sea often makes any communication with St. Kilda impossible for months.

The group of eight Phoenix Islands in the Pacific has a total population of only 158, while another little bit of the British empire is Fanning Island. This is a landing place for the Pacific submarine cable, and usually there are about 100 people in the place.

The loneliest of all parts of British territory is the island of Tristan da Cunha, in the south Atlantic, which is also the smallest inhabited island in the empire. It is 1,800 miles from land, has a population of seventy-four Scottish Americans, and the inhabitants get news of the outer world usually once every two years.—London Stray Stories.

Recognized.

A Pennsylvania lawyer known throughout the state for his sharpness once met his match in a very unexpected quarter.

An old woman was being cross-examined by him as to how the testator had looked when he made a remark to her about some relatives.

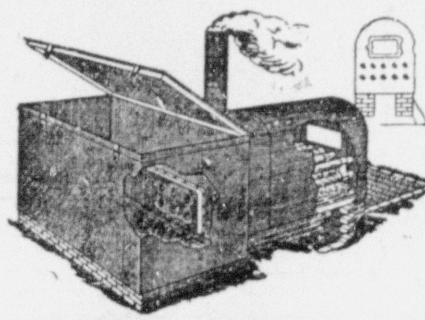

"I don't remember. He's been dead three years," she answered testily. "Do you mean to tell me that your memory is so bad that you cannot go back three years?" demanded the attorney.

The witness was silent.

"Did he look anything like me?" the lawyer finally ventured.

"Seems to me he did have the same sort of vacant look," responded the old lady.—New Orleans Picayune.

HOG FEEDERS

Pat. Applied for 100 bu. size.

We have at last discovered the best and healthiest hog feed, it is 1-2 corn and cob meal, 1-3 wheat and 1-6 oats cooked until 10 bushels will make 25 bushels in bulk, then draw off 25 gallons of syrup, and add 50 gallons of water and then add 25 gallons of ground wheat and oats to thicken the slop, feed it warm if possible. This will make 100 gallons of the best slop ever fed a hog.

Come and see 160 head I am feeding on 10 bushels of this mixture of dry grain per day and you surely will be convinced it is the only way to feed. They are running on my wheat stubble sown in clover, all eat regular and perfectly healthy. If I tell you what they are gaining you could not believe it, so come and see them, and you will say they are doing better than hogs fed twice the amount of dry grain.

Yours for producing more beef and pork,

Get to Go Deep to Cure Rheumatism

Liniments Help Locally, But the Disease is Way Down Inside.

To get at the source of rheumatic pains it requires the deep, searching influence of S. S. S., the famous blood purifier. Rheumatism is primarily a blood disease that, since it is in this vital fluid that rheumatic tendencies are carried, lodges in the joints and muscles, there to irritate the nerve and produce pain. And in order to drive out these pain-inducing poisons it requires S. S. S. to sink deep into the tiny glands imbedded in the innermost tissues. S. S. S. travels wherever the blood goes and never loses its medicinal influence. This explains why it overcomes the most chronic forms of rheumatism, why it dislodges those hard deposits that thicken the joints, for it acts as a solvent and assists the blood to provide in the tissues those natural elements for which the body-building process continually craves and must have.

If you have never used S. S. S. for rheumatism, get a bottle today of any druggist. Use it as directed and with some simple home helps you will soon de throne the worst and most painful forms of rheumatism. Write the medical department, The Swift Specific Co., 63 Swift Bldg., Atlanta, Ga., for additional advice. Yours may be a case where a slight help from a specialist whose advice is free, will solve the mystery that has been making life miserable for you. When you ask for S. S. S. insist upon it and refuse all substitutes.

STOMACH UPSET?

Get At the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, coated, appetite poor, lazy, don't care feeling, no ambition or energy, trouble with undigested food, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramp or pain.

Take one or two at bedtime for a quiet relief, so you can rest when you like. 25¢ and 50¢ per box. All druggists.

JUDGE CREIGHTON OPENS THE CIRCUIT COURT

BUSINESS OF NOVEMBER TERM ALREADY IN FULL SWING.

Sixty-two Orders Were Entered Monday—No Jury Trials to be had Until Second Week—Court Clearly Outlines Duties of Grand Jurors—Condemns Men Who Seek Escape From Jury Service.

The business of the November term of the Morgan county circuit court started off with a vast amount of vigor Monday, Judge James A. Creighton on the bench. The court after listening to the excuses of a number of petit jurors charged the grand jury and during the day made orders in sixty-two different cases. Judge Creighton gives every evidence of a desire to expedite business as much as possible and many cases will no doubt be disposed of before the end of the week. The instructions given to the grand jurors left no doubt as to their duties and the court made some very pointed observations about citizens who seek to escape from jury service.

Judge Creighton impressed the fact on the mind of each juror that it was his duty to be present whenever court was in session except when excused by the court. The jurors were all excused from duty for this week owing to the fact that no trial by jury cases were docketed for hearing. The judge therefore issued the order excusing them and instructed them to be present at nine o'clock next Monday morning. The sovereign right of the individual juror and the jury as a whole was touched upon by the court. He said that in all of the greater crimes the defendant had the right of a trial by jury. When the juror is accepted by the court and the officers of the court, he becomes an officer of the court also. The court is helpless to give justice without the aid of the jurors. In olden times, the court said that the king gave all orders, judged all cases, was supreme among the people. The people were then subservient to the king. The king chose his court officers, his servants, and all directors of the public estates.

When this country was formed the order and organization of things were just the reverse from the monarchies of the old world. The people selected their leader, their president, their executive officers. The trial by jury gave the people the right to decide whether or not a defendant in a case was a criminal

and what his punishment should be, what justice should be dispensed in civil cases, and in all cases concerning the people themselves. The right of the juror is sovereign.

Jury Service a Duty.

The court severely criticized the man who when his name is drawn for jury service attempts to dodge the sheriff, or who lies to the judge in an effort to escape his public duty. This man is a poor citizen in whatever walk of life he may be. The duty of the juror is to the people, to his own community, his is a sovereign right and the court asserted that when a man is chosen for jury duty, he should come forward proud to perform this duty for his country and community. The judge explained that the work of the court was very apt to be interrupted by unavoidable happenings. One of the lawyers, one of the witnesses, or the defendant may get sick, a number of things may happen to delay justice and the trial. So the court tried to impress the jurors that time should not be wasted and that the cases be considered as rapidly as possible. The court asserted that it costs the county \$10.00 per hour each hour that the court is in session and that for this reason and for the convenience of the litigants, the cases should be considered with all possible despatch.

The following who were called for jury duty were excused from serving: Ratio McKinney, Chapin; Marion Spies, Franklin; George Salby, M. M. Wood and John Larson of Jacksonville; Lester L. Hart of Sinclair; and George Roigers and Robert Challans, of Waverly.

The others were excused from duty until next Monday morning at nine o'clock, when they will be expected to be in the court room promptly. Those who will report Monday are: Herman Englebrecht and George Coulson of Chapin; E. Newton of Concord; George Calhoun of Franklin; William Wagner, John W. Theobald, James Green, Hiram Johnson, Ed Tribble, H. D. Lavery, Joseph Towers, Walter Parkins, Walter Patterson, Phillip Schultz, Jr., John H. Jackson, E. T. Massey, H. C. Massey and D. H. Slater of Jacksonville; J. W. Martin of Litterberry; Joseph Butcher, C. M. Skinner, and Isaac Herbert of Mercedosa; Charles Murphy of Murrayville; Thomas Hanning, John Swain, and Benjamin Sage of Prentice; Benjamin Darley of Waverly, and William Mortimer of Woodson.

After the petit jurors were dismissed for the week, the court called the grand jurors. This body consist of twenty-three men and is composed of the following members: F. B. Henderson, Arcadia; Rina Steinberg, Chapin; James Pfeil, Concord; E. C. Randall, Franklin; Frank Kiloran, Gresham; M. Freer, George Royce, Edward White, R. L. McCullough, Wm. A. Crawley, Jackson-

ville; C. A. Beavers, Litterberry; Richard Leage, Markham; T. B. McAllister, Mercedosa; Thomas Irman, Murrayville; Thomas Henry, Nortonville; William Zoll, Waverly; George Craig, Woodson; James Summers, J. C. Austen, Christopher Mader and Peter Titou were accepted as grand jurors in place of Hubbs, Fox, Vasconcellos and Hall, who were excused.

James Pfeil of Concord was selected and sworn by the court as foreman. George Kimber was sworn in as officer of the body. The foreman selected Clifford Austen to act as clerk.

Duties of Grand Jury Outlined.
The court in instructing the grand jury explained parts of their oath to them, making clear parts of the obligations which are sometimes obscure in the jurors' mind. The court in his clear explanation gave little room for error or misinterpretation to creep into the minds of the jurors. There are twenty-three men in the grand jury body. Sixteen members constitute a quorum. The affirmative vote of twelve results in a true bill of indictment. It takes the vote of twelve to return an indictment. Judge Creighton said that in English law when a man is accused of murder there must be twelve men charge him with the crime before he can be brought to trial. In this country the law is very similar as twelve members of the grand jury must return an indictment before one charged with any crime can be brought to trial. The court in instructing Foreman Pfeil to select two clerks, urged the jurors to hasten their work as much as possible and related that at one time in his experience, after he had instructed the members of the jury at ten o'clock in the morning and they had retired that along about three or four o'clock in the afternoon the court officer had come in with word that the members of the grand jury were holding a regular primary election among themselves in an effort to elect two clerks. The court also sought to impress upon the minds of the jurors that time should not be wasted on account of the inconvenience and unnecessary expense which long delayed trials and indictments bring. The judge said that it was always best to take up first what is known in court parlance as bind-over cases. In these cases the litigants are made to wait over from the preceding term of court at great expense and oftentimes awaiting trial in jail.

The following docket entries were made by Judge Creighton:

SIGNALS OF DISTRESS.
Jacksonville People Should Know How to Read and Heed Them.

Disordered kidneys give many signals of distress. The secretions may be dark, contain sediment.

Passages are sometimes frequent, scanty, painful. Backache is often present day and night.

Headaches and dizzy spells may occur. Weakened kidneys should receive quick help.

Don't delay! Use a special kidney remedy. Doan's Kidney Pills are for weak kidneys, backache and urinary disorders.

Jacksonville evidence proves their worth. P. J. Meany, blacksmith, 333 North East St., Jacksonville, says: "When I used Doan's Kidney Pills two or three years ago, they fixed me up in good shape. My kidneys pained me terribly and my back ached, especially when I stood. The action of my kidneys was irregular. Doan's Kidney Pills not only stopped the pains and aches, but also regulated the kidney action."

Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Meany had. Foster-McMillan Co., Props., Buffalo, N. Y.

THEN and NOW NOVEMBER 10, 1914

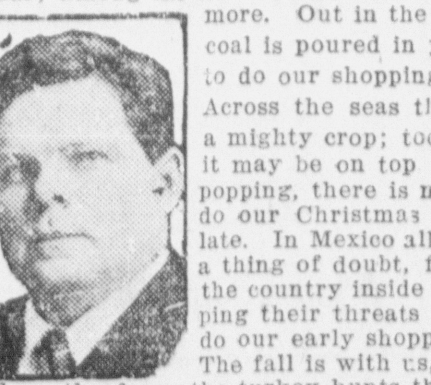

It was twenty-five years ago today that the free delivery of letters was extended to all towns in the United States, having 5,000 population or over. This completed the extension of free delivery of letters paying 10 cents postage which began on that date. The free delivery of letters was, however, begun in the larger cities in 1863 during the civil war. It was then made necessary by the fact that the people in the cities crowded the post offices to hear from the front. In large cities like New York, Philadelphia and Boston the increased mail of war almost swamped the post office department and made free delivery an absolute necessity. But in 1864 there were only 635 letter carriers in all the cities of the United States. In 1889 when free delivery was extended to smaller towns citizens in towns of 25,000 population had to send to the post office for their mail. The most urgent letters could not be delivered by post a single moment ahead of the less important and a vast majority of the two-thirds of the population of the country living in the rural districts had to travel on an average of from five to ten miles for mail and in many of these districts mail was delivered at the post office only once a week.

Today in almost every town and city the mail is delivered at office, shop or residence from once to ten times daily except Sunday by an army of 30,000 letter carriers and another army of nearly 45,000 rural carriers serve country communities from Florida to Canada and from Maine to California. An army of more than 75,000 men are employed by more than 60,000 post offices to serve the American people and with the exception of its hamlets and small villages where every resident is convenient to the post office everybody receives his mail by free delivery. In 1897 the rural free delivery was established with 44 routes. For a year or two it was purely an experiment for the expenses were far in excess of the receipts and even today rural free delivery does not pay the post office department but it has become such an absolute necessity to the farmer that he has compelled the government to make it permanent and the whole country is well satisfied to be taxed for the deficit. For rural free delivery has not only increased the attractiveness of rural life but it has greatly augmented the business of the country with the city and contributed to the general prosperity.

Signs and Tokens

The Autumn days will soon be over; among the flowers and in the woods the nuts are dropping; the coal is poured in yawning bins; and we should haste to do our shopping before the Christmas rush begins. Across the seas the cannon thunder, Death's harvesting a mighty crop; today we see one army under, tomorrow it may be on top popping, there is no do our Christmas late. In Mexico all a thing of doubt, if the country inside of our early shop. The fall is with us, the turkey hunts the wily rapt; the football coach is wily rant and rate; and we should do our all-fired late.

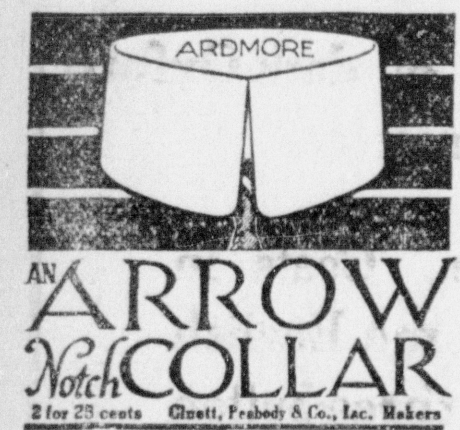

over, the winter tempests soon will clover the busy bees are seen no woods the nuts are dropping; the coal is poured in yawning bins; and we should haste to do our shopping before the Christmas rush begins. But here at home no shells are a struggle, horn of hate, and we can shopping before it is too doggone late. Things seem quiet, but quiet there's of an hour may bring a riot, to turn the generals are always swapping, with ugly leer, but we may ing, and none will dare to interfere. The fall is with us, the turkey hunts the wily rapt; the football coach is wily rant and rate; and we should do our all-fired late.

NEW BOOKS AT THE PUBLIC LIBRARY.

History and Travel.
Carnegie Endowment for International Peace—Report on the Conduct and Causes of the Balkan war. Crawford—Thinking Black.
Reveals the workings of the native's mind in Central Africa with its superstition, subtlety and logical drift. The author, a man of reflection and scholarship was a missionary for twenty-two years in the long grass of the Dark Continent. He writes brilliantly, strangely, with pitiful interjections and striking phrases. Good illustrations and maps.

Miscellaneous.
Speaker vol. 1 and vol. 4.
There are always demands for good readings and the selections in these volumes are very well made. Terman—Hygiene of the School Child.

Deals with the hygiene of physical and mental growth. A reliable up-to-date guide for teachers and serviceable also for parents.

Farmer's Bulletin 609, Bird Houses and How to Build Them. is authority for the statement that birds may be kept around our houses at all seasons of the year if their human friends will supply the needs of their small housekeeping. In winter they are often unable to find food. If this want is supplied and they are provided with comfortable winter houses they will occupy them. To help about this the bulletin gives drawings and descriptions of convenient and inexpensive bird houses.

Rent Riction.

Bosher—How It Happened.

"A Christmas story in which a very communicative child of thirteen, poor, but a princess in her wealth of imagination, pours out her soul to a young man while watching guests arrive at a wedding. The young man who had broken their engagement three years before is lonely too, and investigating life in poor places to try and find an interest. She is the dearest friend of the child, who teaches the young man the real meaning of Christmas, unites the lovers and has a most glorious time herself." A. L. A. Bkl.

O'Brien—New Men for Old.
"An optimistic and vigorous story of a young Chicago man who is called home from Paris by the death of his father to find himself penniless and absolutely thrown on his own resources. He has native ability and rises rapidly to general management of a large factory. On the way up he makes love to his employer's daughter, learns that work is a joy, observes labor conditions and makes an earnest plea for the present-day humanitarian attitude which the younger generation of business men is forcing on the older."—A. Only Sure Corn Cure Ever Known

"Gets-It" the New Way, 2 Drops Do It.
To endure the pains and tortures caused by a little thing like a corn is ridiculous, simply because it is unnecessary. The new-plan corn cure,

Use "GETS-IT" for Corns and You Won't "Holler" When You Put on Your Shoes.

"GETS-IT" is the first one ever known to remove corns without fail, without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions, because it does away with sticky tape, with plasters and cotton rings that shift their position and press down onto the corn, with salves that "raw" the tissue, with "harnesses" that cause pressure and pain, with knives, razors and files, clawing and pulling at a corn. "GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels and vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight.
"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by Lawrence & Co., Chicago. Sold in Jacksonville by Armstrong's Drug Co.—J. A. Obermeyer.

WHY I AM NOT A CHRISTIAN SCIENTIST

Percy W. Stephens.

I have carefully studied "Science and Health" and also the Bible, and am justified in saying that the former is the book that uses a dagger to kill, while it utters peaceable words about the Bible and the Lord Jesus.

Mrs. Eddy claimed to have received a "final revelation" from God, which she copyrighted in 1870. The "finality" was repudiated in the constant revisions, changes, corrections, rebuilding, etc., which the book has undergone.

Mrs. Eddy claims that the church was left without true guidance until she was raised up. What shall we say of such saints as Martin Luther, Philip Brooks, etc?

John Alexander Dowie had as wonderful and perhaps more wonderful cures than Mrs. Eddy, and alas he also had such woeful failures. The mind method of cure is an ancient as paganism.

I am not a Christian Scientist, because the name is a misnomer. It is like guinea-pig, for that creature is not a guinea and does not come from a pig.

Mrs. Eddy states that her purpose was "to relieve suffering by a sanitary system." Here is the denunciation of the originator as to the purpose of the movement.

I am not a member of this "sanitary system" movement because it is not Christian.

It denies the christian teaching of God. Mrs. Eddy in commenting on I Timothy 2:4 said "that which will have all men to be saved is principle and not person." It is pantheistic.

It denies the christian teaching of the person and work of Christ. It denies the incarnation of Christ, saying, "the Virgin mother conceived this idea of God, and gave to her ideal the name Jesus." The Bible says "Mary brought forth a Son."

It denies the substitutionary work of Christ, saying, "one sacrifice however great is insufficient to pay the debt of sin." The Bible says, "He was wounded for our transgressions."

It denies the death and resurrection of the Lord Jesus saying, "His disciples believed Jesus to be dead, while He was hidden in the sepulchre, whereas He was yet alive." Again, "He rose from the dead the third day of His ascending thought." What nonsense and contradiction. The Bible says, "He died, was buried and rose again."

It denies the christian teaching of prayer saying "prayer is not to be used as a confessional of sin. If prayer nourishes the belief that sin is cancelled, and that man is made better by praying, prayer is an evil." Jesus said of this penitential publican who prayed "God be merciful to me a sinner." "This man went down to his house justified."

To call this teaching of the "sanitary system" "Christian" is rankly dishonest, to say the least.

I am not a "Christian Scientist" secondly, because it is not scientific in its teaching.

It denies the existence of substance, saying, nothing really exists, but just seems to exist. That you must view the whole universe as nothing but falsehood.

Money however is real, and Mrs. Eddy made \$1,225,000 in seven years. Jesus never charged for cures or tuition.

It denies the existence of suffering. "Suffering, dying beliefs are not real." "Man in science is neither young nor old." Then why did Mrs. Eddy become the decrepit old woman she did?

Listen to this. "When the unthinking lobster loses its claw, the claw grows again. If the science of life were understood the human limb would be replaced as readily as the lobster's claw." The only thing that stops the amputated limb growing is your belief that it will not grow. There is a man in the State Insane Asylum who has absolutely lost his mind, so that there can be no mind counteraction in his case, and yet when I phoned yesterday to know if his amputated right foot was growing again, they almost thought I was a fit subject for the institution for asking such an absurd question.

According to the "sanitary system" of Mrs. Eddy, to regain a lost limb or member, one has only to become a lobster. Very scientific, isn't it?

This system denies the reality of sin saying, "every mortal must learn that there is neither power nor reality in evil." It also says "no final judgment awaits mortals." What must be the outcome of this devilish teaching? Anarchy and grossest immorality! It is the most terrible doctrine that has ever been taught—most dreadful. Violate the honor of your name, stain the purity of character, and say "sin is error" and you have not sinned. Horrid!

Christ says, "There shall arise false prophets who shall perform wonders and deceive many. Believe them not."

God save us from this terrible doctrine which cursed India.

SOUTHERN DOCTORS MEET.

Richmond, Va., Nov. 9.—The annual convention of the Southern Medical association, which opened here today, brought together a large number of the south's most prominent medical men. Discussions of medical subjects will occupy the meetings this afternoon, Tuesday and Wednesday.

SUNDAY IN ARCADIA.

Mrs. Louis Fredlander, George Fredlander and Misses Emma and Minnie Fredlander, Mr. and Mrs. Mathew Miller and Emmett Miller went to Arcadia Sunday and spent the day with Mr. and Mrs. Fred Henderson.

LITERBERRY.

The Literberry Baptist Aid met in a Harvest Home meeting at Walnut Brook, the beautiful suburban home of Mr. and Mrs. Ona Crum, on Thursday afternoon, with Mrs. Crum as hostess, and Mrs. Durrell Crum assistant.

The program:
Song.
Bible reading.
Piano duet, Harvest Home, by Mrs. Ona Crum and Mrs. Durrell Crum.

Song.
A business session.
Piano music.

Reading, How Noah and His Family Kept Harvest Home, in old Bible times, by Mrs. McCarty.

Offering.
Benediction.
Refreshments were appetizing and served in abundance. Those present from a distance were Mrs. McDonald and Mrs. Scarlett from Jacksonville and Mrs. C. Z. Roach from Concord and Mrs. Fred Henderson from Arcadia.

This was a very pleasant and enjoyable meeting.

Mr. and Mrs. Wall Mason of Maple View spent Sunday with Warren Daniels and wife.

Mrs. J. M. Litter's class, of the Baptist Sunday school, gave a special program on Sunday morning. It consisted of interesting exercises in the way of a "class rally" and was nicely carried out and well received. After the class exercise, they sang a beautiful new song, "Because He Loves Me," and were encored and responded with the song, "As We've Given So Shall We Reap." The class deserve credit for giving such a good entertainment. The school numbered 103; collection \$4.40.

Mrs. Roy Grassly and Misses Carrie and Nellie Grassly of Chicago expect to leave for their home this morning after a visit of a few days with friends in Jacksonville.

OUCH! ACHING JOINTS. RUB RHEUMATISM PAIN

Rub Pain Right Out With Small Trial Bottle of Old "St. Jacobs Oil."

Rheumatism is "pain" only. Not one case in fifty requires internal treatment. Stop drugging! Rub soothing, penetrating "St. Jacobs Oil" right into your sore, stiff, aching joints, and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism liniment which never disappoints and can not burn the skin.

Remember up! Quit complaining! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacobs Oil" is just as good for sciatica, neuralgia, lumbago, backache, sprains.

SICK, SOUR STOMACH, INDIGESTION OR GAS

"Pape's Diapiesin" Makes Upset Stomachs Feel Fine in Five Minutes.

Wonder what upset your stomach which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quick-est, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary—advertisement.

EE IF THE CHILD'S TONGUE IS COATED

If Cross, Feverish, Constipated. Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel "splendid."

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

STRENGTH IN EXCITEMENT.

Either Fear, Rage or Pain Starts the Adrenal Glands to Work.

Many a person has wondered where he obtained the strength that enabled him to undergo some emergency that called for unusual physical exertion when under ordinary conditions he would be unable to control a tithe of that strength. It was from the adrenal glands, two little glands situated above the kidneys which secrete what is known as adrenaline and when stimulated discharge the same into the blood. The effect of this addition to the blood is to release sugar from storage in the liver and bring it into the blood, drive the blood from the abdominal regions into the heart, lungs, central nervous system and limbs. The resulting effect is to excite the muscles to irritability and enable unusual effort to be made.

Either fear, rage or pain will supply the stimulus required to set the adrenal glands into action. When a muscle is fatigued without any accompanying degree of excitement it may take a couple of hours for it to recover its normal condition, but if adrenaline is injected, or if through excitement the adrenal glands are stimulated to discharge and secrete, the fatigued muscle may regain its "irritability" in three minutes. The sugar set free from the liver and circulated in the blood stimulates the muscles, for sugar is the source of muscular energy. Fear, rage and pain are thus given us by nature as agencies to enable us to use our physical powers to their fullest extent in the crisis that produces the excitement.—Los Angeles Times.

BEARDS IN BATTLE.

And Why Clean Shaven Men Became Prized as Warriors.

The habit of shaving is not of a very ancient origin. According to James Stephens in "Here Are Ladies," when humanity lived a quiet, rural and unambitious life men did not shave; their hair was their glory, and if they had occasion to swear, which must have been infrequent, their hardest and readiest oath was "By the beard of my father," showing clearly that this feature was held in veneration in early times and was probably accorded divine honors upon suitable occasions.

With the advent of war came the habit of shaving. A beard offered too handy a grip to a foe man who had got to close quarters; therefore, warriors who had no true hardihood of soul preferred cutting off their beards to the honorable labor of defending their chins.

Many ancient races effected a compromise in order to retain a fitting military appearance, for a bearded warrior has but little of terror in his aspect. The ancient Egyptians, for example, who had cut off or could not cultivate or had been forcibly deprived of their beards, were wont to go into battle clad in heavy false whiskers, which, when an enemy seized hold of them, came off instantly in his hand, and the ancient Egyptian was enabled to dispatch him while in a trance of stupefaction and horror.

Clean shaven men became by this cowardly stratagem very much prized as fighting men, and thus the foundation of the shaving habit was laid.

Names of Nations.
The names of the great nations of Europe set many puzzles to the philologist. There is no doubt that France is the country of the Franks, the free men, or that Austria is the eastern empire. But one would not so easily guess that "Russians" means rowers or seafarers—a word of Swedish origin commemorating the Scandinavian vikings. The Britons have been supposed to take their name from a word signifying variegated, in allusion to their staining their skins with woad. Most puzzling of all is "Germans," which is not the Latin "germanus," own brother, but of Celtic origin, and has been variously interpreted as meaning "the people" or "the shouters."—London Chronicle.

Taken at Her Word.
A Bloomfield woman looked across her lawn to where passersby were breaking off the blossoming twigs of her favorite quince tree.

"We might as well cut the tree down as let it stand for people to destroy," said she.

Half an hour later the tree lay on the ground beside a little hatchet, while around behind the house the small boy of the family was getting a switching with one of the branches.

This teaches us that we should be sure of our audience before we employ hyperbole in our speech. — Newark News.

A Means of Approach.
"Though I am not a smoker I like to carry matches in my pocket. One is always liable to be accosted on the street by some one in need of a light. To be able to give a match is a great luxury. It forms the basis for a momentary friendship."—Atlantic.

That Feminine Minute.
"Sit down and let's have a good talk. I have a free hour."
"Aren't you going out with your wife?"

"Yes, but she just called down she'd be ready in a minute."—Baltimore American.

Feminine Touch.
"Fa, what is meant by a feminine touch?"
"A feminine touch, my son, is a bow of pink ribbon on a fly swatter."—Baltimore Sun.

A Message To Women

Those of Middle Age Especially.

When you have found no remedy for the horrors that oppress you during change of life, when through the long hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period.

Read what these three women say:

From Mrs. Hornung, Buffalo, N. Y.

BUFFALO, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak."

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. HORNUNG, 91 Stanton St., Buffalo, N. Y.

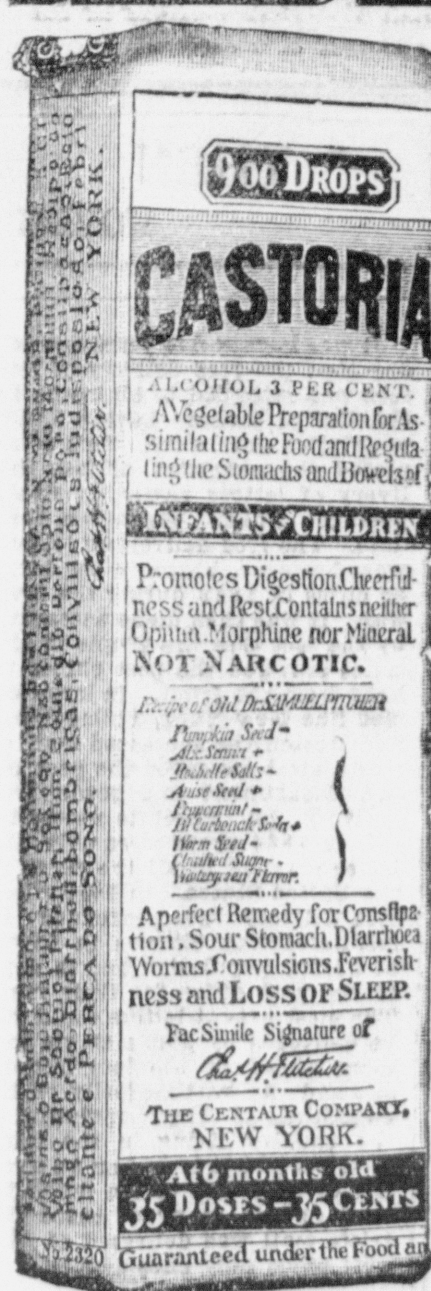

Was a Blessing To This Woman.

So. RICHMOND, VA.—"I was troubled with a bearing down pain and a female weakness and could not stand long on my feet. Of all the medicines I took nothing helped me like Lydia E. Pinkham's Vegetable Compound. I am now regular and am getting along fine. I cannot praise the Compound too much. It has been a blessing to me and I hope it will be to other women."—Mrs. D. TYLER, 23 West Clifton St., South Richmond, Va.

Pains in Side, Could Hardly Stand.

LODI, WIS.—"I was in a bad condition, suffering from a female trouble, and I had such pains in my sides I could hardly move. Before I had taken the whole of one bottle of Lydia E. Pinkham's Vegetable Compound I felt better, and now I am well and can do a good day's work. I tell everybody what your medicine has done for me."—Mrs. JOHN THOMPSON, Lodi, Wisconsin.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

WORLD'S MARKET NEWS

SPECULATIVE SELLING ACTS AS DRAG ON WHEAT MARKET

Effect of Big Export Business is Not
Lasting—Fear of Bearish Crop
Report Weakens Corn.

Chicago, Nov. 9.—Speculative sell-
ing due to the absence of any radical
bullish news operated as a drag to-
day on the wheat market here.
Prices at the close were unsettled,
3/4c to 1/2c lower than Satur-
day night. Other cereals, too, suf-
fered a net decline—corn, 3/4c to 1/2c
and oats 1/2c to 3/4c. In provis-
ions, the outcome was unchanged to
10c down.

Notwithstanding that wheat traders
appeared inclined to accept the
likelihood of a falling off soon in the
movement of the crop of the leading
terminals, it could not be denied
that today's developments were far
from satisfactory to the bulls. Pri-
mary receipts turned out to be heav-
ier than either last week or a year
ago and there was still an uncom-
fortable rate of increase in the
domestic visible supply total. Be-
sides, the stock on hand in Chicago
continued to be enlarged.

The export business, especially at
Lulu and Kansas City, helped to
lull the wheat market for a while,
but the effect was not of a lasting
sort. Talk of a serious shortage of
ocean tonnage caused a good deal
of uncertainty and was not much
offset by opinions expressed that
vessel return to Europe would be
more readily obtainable in the near
future.

Unfounded fear of a bearish crop
report from Washington weakened
corn. The government estimate of
yield proved bullish. Farm receipts,
though, were larger than expected.
Oats felt the depression in other
grain. Frost damage in Argentina
and the loss of a South American
cargo on the way to Liverpool were
only of temporary advantage to the
bulls.

DRIVES AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from cold or congestion. And it acts at once! MUSTEROLE is a clean, white ointment made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Best for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Gout, Rheumatism, Lumbago, all Pains and Aches of the Back or Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

DISROBES IN STREET WHEN RAT RUNS UP HIS TROUSERS

Cambridge Youth Exposed to Breeze and Gaze After Watching Rodent Hunt.

New York, November 8.—Adventures today attended the brief journey into South Street of Archibald Greene of Cambridge, Mass., on his way to the United Fruit line pier to inspect the steamer on the steamship Carillo, in which he is to sail tomorrow for Jamaica.

As Mr. Greene was passing a saloon nonchalantly swinging his cane, Poison Pete, the bartender, emerged with a trap full of rats under his arm, followed by Bum, the rat-catching dog of the revenue cutter Calumet.

Archibald stopped to watch the sport and enjoyed it until the seventh and last rat eluded the dog and ran up his trousers leg. Bum leaped at the concealed rat and caught the leg.

Mr. Greene stayed the progress of the rat just as it reached his knee and held off the dog. Dan McGinn and Bill Quigley went to his aid but found it impossible to get the rat down from his hiding place.

Two small boys solved the difficulty. At their suggestion and with their aid, Mr. Greene slowly slipped his trousers off, all the while holding the rat so it could neither bite him nor escape.

Underwear reaching only to the knees appears to be the style in Cambridge and Archibald was in style. One of the boys shook the rat out of the trouser leg and Mr. Greene, in the chill East River breeze, became so interested in Bum's dexterous attack on the rat that he did not notice what became of the two boys and his trousers.

Sympathetic longshoremen gathered about him, forming a screen against the vulgar gaze, while Poison Pete went back to the saloon and brought a bartender's long apron.

In this Mr. Green went to the nearest clothing store. His blue garters were visible at every step, but he swung his cane unconcernedly as he went back along South street.

Mr. Greene's tickets to Jamaica were in his trouser's pocket.

CHARITY WORKERS AT BOSTON.

Boston, Nov. 9.—The discussion of efforts for the relief of immigrants and the prevention of infant mortality are the subjects of discussion at the joint convention of the American Association for the Study and Prevention of Infant Mortality and the Massachusetts State Conference of Charities, which will open tomorrow morning. A three day session will be held at Ford Hall, and many charity workers are here for the meetings.

WITH THE SICK.

Mr. and Mrs. Charles Smith went Sunday to Washington, Ill., called by the illness of their son, Dwight Smith.

Paul Spaulding is confined to his home on West College avenue by an attack of follicular tonsillitis.

Exra Scott, South Main street, who has been ill with pneumonia, is able to be about.

Cliff Crabbe, of the School for the Blind, underwent a minor operation Saturday at Our Savior's hospital.

PENNSYLVANIA TOWN

IN GALA ATTIRE. Irwin, Pa., Nov. 9.—This is a centennial week in Irwin, and the town is in gala attire for the event. Parades and speechmaking, reunions of former residents, are among the events of the week, and a large number of visitors are here.

HOMEOPATHS AT BALTIMORE.

Baltimore, Md., Nov. 9.—The Southern Homeopathic Society opened its annual convention here this morning, with a large attendance. The Washington Homeopathic society is adding the Baltimore society in entertaining the guests and providing speakers and subjects.

NURSES IN THE WAR.

What the Women are Doing.

The women of the Red Cross are nursing, cheering and comforting the wounded or dying. The women of Europe not only wrap bandages, scrape the lint, but they tend farms, dig coal, carry burdens and do the work of the men now under arms. Every male fighter, however brawny and heroic, was born of woman; the high courage and hardihood that are a nation's strength are inherited from the mother.

Young mothers who preserve the charms of face and figure in spite of the work of an increasing family and the care of growing children are always to be envied. Dr. Pierce's Favorite Prescription gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables the mother to nourish the infant life depending on her, and enjoy the development of a perfectly healthy child.

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions of perfect health.—adv.

MORGAN COUNTY FARM TOPICS.

John A. Groves who has had a good deal of experience in agriculture and live stock tells of a simple remedy which his father used to find effective for hogs afflicted with the cholera. Mr. Groves says that it was his father's custom to make a strong alum solution and to give each sick hog a thorough drenching with it. This he accomplished by tying a rope around the hog's head and then pouring the alum solution through a cows horn into the hogs mouth. In a number of instances this remedy brought good results.

Mr. Groves also believes in the theory that sandy hog lot, or a great pile of sand in a hog lot is helpful to the animals. His observation has been that in Minnesota where farmers sometimes keep sand piles especially for the hogs to roll in that the results are helpful in the battle with disease.

Hog cholera is a disease which manifests itself in a dozen different symptoms and occurs peculiarly. Out on the Vasey farm some two years ago, there was a drove of hogs which kept perfectly well, while on an adjoining farm a large number died from the cholera, and yet both droves of hogs were drinking from a stream which flowed through both farms and in other ways the conditions surrounding the two droves were very similar.

There is more and more talk now about the farm advisor for Morgan County and there are a number of farmers who would be glad to join in and guarantee the expense of securing an advisor provided national aid or state aid could be secured. The trained farm advisor gets a salary of from \$2500 to \$3500 per annum and this expense with some others would mean quite a large sum. There are some farmers who believe, too, that an agriculturist with practical experience but without university or college of agriculture education could be employed at a salary of say \$1,000 a year and would prove helpful. There are still other farmers who believe when the farmers' club sets into action that township and neighborhood meetings can be held and that the result will be more beneficial than could come about in any other way.

TO REMOVE EVERY SIGN OF DANDRUFF.

Try This Simple Home Treatment. It Surely Makes the Hair Soft, Fluffy and Lustrous.

If your hair is not pretty, if it is losing color, too dry, matted, falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost and only a few moments time. Just get from Coover & Shreve, or any drug counter, some Parisian Sage, a most helpful and invigorating tonic that supplies every hair need. It is easily applied, absolutely harmless and is as inexpensive as it is beneficial. Improvement begins with the first application. For Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft, fluffy and lustrous. It immediately removes every bit of dandruff and stops itching scalp.

Be sure to get Parisian Sage for there is no other so effective and this will surely give your hair new life and beauty.—advertisement.

MOONLIGHT SCHOOLS

IN KENTUCKY. Frankfort, Ky., Nov. 9.—The campaign now being waged in Kentucky against illiteracy has met with notable success, and Mrs. Cora Stewart, president of the state illiteracy commission, expects to have in session this week 2,000 "moonlight" schools, with 100,000 adults in attendance.

Mrs. Stewart has had ten stenographers busy for a full month issuing bulletins and answering the piles of letters incident to the widespread organization of the schools and the financial campaign. Letters of appreciation are pouring in from those who are aided.

Mrs. Gilmer Speed Adams of Louisville has had charge of the finance campaign, and has traveled all over the state organizing the communities. All of the work is done under the supervision of the state commission.

A SUNDAY SCHOOL SERMON.

At Central Christian church Sunday morning the pastor, Rev. M. L. Pontius, made an innovation in the usual order of services by the addition of a five minute talk especially to Sunday school pupils just before the sermon of the morning.

The pastor made use of candles and other articles as illustrations and drew home his points with great effectiveness.

It is probable that these five minute "Sunday school sermons" will be repeated once each month.

A NEW CHILD QUESTION. A little fellow of four years or thereabouts, a beautiful child and a perfect cherub in appearance, came up to an auto standing on West College avenue yesterday and asked, smiling, "Do any of you people swear?"

"Mercy, no!" answered one of the ladies in the car.

"Well, I do," said the cherub and proudly turned his back upon them as no longer worthy of his attention.

GOVERNORS GATHER TO AID UNIFORM LAWS

Madison, Wis., Nov. 9.—The conference of governors, which opens tomorrow in Madison will urge the promotion of greater uniformity in state legislation, greater co-operation between state and nation and greater efficiency in state administration. A surprise was sprung on the executives when it was learned that the conference of commissioners on uniform laws, recently held in Washington, decided not to send a representative here to address the governors.

The first conference of governors was called by President Roosevelt in 1908, and national resources was the subject then under discussion. Much is expected of the meeting this year, and several important matters will be considered.

Misses Lucy Mount, Miss Thelma Davies and Miss O'Keefe are attending the State Nurses' convention in Springfield.

DULL, THROBBING OR VIOLENT HEADACHE

Don't Suffer—Get a 10 cent Package of Dr. James' Headache Powders.

You take a Dr. James' Headache Powder and in just a few moments your head clears and all neuralgia and pain fades away. It's the quickest and surest relief for headache, whether dull, throbbing, splitting or nerve-racking. Send someone to the drug store and get a dime package now. Quit suffering—it's so needless. Be sure you get Dr. James' Headache Powders—then there will be no disappointment.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair.

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's" Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time, by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

State of Illinois, ss

Morgan County, In the Circuit Court, to the November Term, A. D., 1914.

John R. Robertson, plaintiff, vs. Arthur E. Robertson, Mary Robertson and Etta Robertson, defendants. In attachment.

Public notice is hereby given to the said defendants, Arthur E. Robertson, Mary Robertson and Etta Robertson, that an affidavit has been filed in the office of the Clerk of the Circuit Court within and for the said County of Morgan and State of Illinois stating that the said defendants Arthur E. Robertson, Mary Robertson and Etta Robertson, are not residents of the State of Illinois, and that a writ of attachment, dated the 29th day of October, A. D. 1914, was issued out of the office of the Clerk of the Circuit Court within and for the County of Morgan and State of Illinois at the suit of the said John R. Robertson in the sum of Five Thousand (\$5,000.00) Dollars, and against the estate of you the said Arthur E. Robertson, Mary Robertson and Etta Robertson, and that said writ of attachment has been returned, defendants not found and levied by the Sheriff of Morgan County, Illinois, on all the right, title, interest and claim of the said Arthur E. Robertson, Mary Robertson and Etta Robertson, in and to the north half of the northwest quarter, and the west half of the northeast quarter, all in section number thirty-three (23), in township fifteen (15) north and range nine (9) west of the third principal meridian, in the county of Morgan and State of Illinois, as the property of the said Arthur E. Robertson, Mary Robertson and Etta Robertson, and that said writ of attachment is returnable on the first day of the next term of said Circuit Court, to be begun and held on the second Monday of November, A. D. 1914, at the Court House in the City of Jacksonville, in the County of Morgan and State of Illinois. And said suit is still pending in said court.

Now, unless you, the said Arthur E. Robertson, Mary Robertson and Etta Robertson, shall personally be and appear before the said Circuit Court of said county, give bail and plead in the above cause within the time limited for your appearance in said cause, judgment will be entered against you in favor of the said plaintiff, and the property attached will be sold to satisfy the same and costs.

Dated this, the 30th day of October, A. D. 1914.

SECRETARY BRYAN ISSUES FORMAL ELECTION STATEMENT

Declares Results Are an Endorsement of President Wilson and His Policies.

Washington, Nov. 9.—Secretary Bryan, back at the state department today after his campaign trip west, issued a formal statement summarizing the results of the election and declaring that they could not be considered otherwise than an endorsement of President Wilson and his policies. Pointing to the slump of the Progressive vote, as the outstanding feature of the election returns, Mr. Bryan said this had resulted in no change in the leadership of the regular Republican ranks; that Senator Penrose and Former Speaker Cannon would represent their party in congress and the progressives returning to that party would have to accept all they had protested against and more.

The Secretary's Statement.

The statement follows: "The election of 1914 cannot be considered otherwise than as an endorsement of the president and his policies. I am so convinced of the merits of the remedial measures enacted under the president's leadership and of the righteousness of his foreign policy that I expected the voters to support the candidates who represented his views. There were a number of causes which operated against our party, namely, the efforts of the beneficiaries of protection, who, out of resentment, sought to make the tariff law onerous; the disturbed condition caused by the European war; and the fact that the excellent laws passed by congress had not had time to prove their worth. Then, too, more Progressives returned to the Republican party than we expected—this alone accounted for most of the Republican gains in the house of representatives. The victory, however, was sufficiently complete to show that the people are with the president and he is now able to continue the splendid program upon which he has entered.

"The gains in the senate are especially gratifying, not a single Democrat defeated for re-election and three senatorships taken from the Republicans.

"There is every reason to believe that the administration will grow in popularity as the laws go into effect and as Democratic policies bear fruit. The new currency law is just beginning to operate; before the next election it will have vindicated its claim to public confidence.

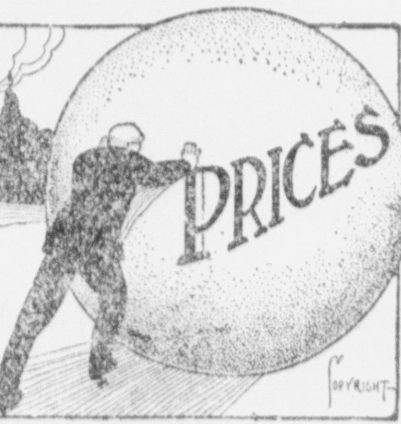

"The new tariff law cannot be repealed until after the people have had a chance to try it out and now that the election is over the protected manufacturers are already resuming work. Some of them suspended operations or cut down their force before the election; and they did it under conditions which left little doubt that they hoped to arouse opposition to the new tariff law. Seeing that the law is here to stay they will now proceed to demonstrate the fallacy of the arguments, which they used in opposing reduction.

"The president's foreign policies are endorsed and his hands strengthened.

"The outstanding fact in the late election returns is the slump in the Progressive vote. A large percentage of the Progressive Republicans have returned to the Republican party and that, too, without any surrender on the part of the 'stand-patters' and the reactionaries. The leadership of the regular Republican party has undergone no change. Senator Penrose and Ex-Speaker Cannon will represent that party in the senate and house and the returning Progressives must be prepared to accept all that they protested against and more from the standpatters.

"The Democratic party deserves the support of all real Progressives, and in the next two years it will draw to itself those Progressives who understand the radical nature of the issue which separated the Democrat from the aristocrat and the plutocrat."

Squire J. B. Beekman of Pisgah returned home Monday after a visit at the home of his rother and sisters in Petersburg. He was accompanied to this city by his brother, C. T. Beekman, postmaster at Petersburg.

ANOTHER ILLINOIS LADY PRAISES

MAYR'S WONDERFUL STOMACH REMEDY

Mrs. Tilla Conard Tells Remarkable Experience After Suffering For Months.

Mrs. Tilla Conard lives at 307 Morgan street, Peoria. She suffered from stomach trouble for months. Nothing seemed to give relief. One day she visited a sister who resides in Bloomington, and upon urgent advice consented to try one bottle of Mayr's Wonderful Stomach Remedy.

This, in her own words, is the story of her experience—read it.

"For a number of months I suffered terribly with pains in my stomach; would fill with gas and belch for an hour at a time. I had pains in my side which at times I thought would kill me. I was under the doctor's care for four months but got no relief at all. One day while in Bloomington my sister persuaded me to take a bottle of your remedy. To say the results were wonderful would be putting it mildly. After the first dose my pain left me, my appetite improved, my skin became clear again and I felt like a new woman."

Mrs. Conard's case is similar to hundreds that are being reported from all over the state and country by people who use this wonderful stomach remedy. One dose will convince any sufferer. No long treatment necessary to learn results.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It brings quick relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations; many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing to try one dose of Mayr's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold by leading druggists everywhere.

MEMBERS OF ELK LODGE

DELIGHT LARGE AUDIENCE

Gala Review Staged at Grand Opera House by B. F. O. E. Was Interesting and Entertaining—Proceeds For Building Fund.

The Elks Gala Review, given at the Grand Opera House Monday night under the auspices of Jacksonville lodge No. 682 B. P. O. E., was greeted by an audience that completely filled the auditorium and gallery. For sometime the members have been at work on the evening's entertainment and the program was so arranged that there was not a dull moment during the entire time. The proceeds of the evening will be used toward the new building fund which is being raised.

The program opened with a scene of the Elks' banquet room, most artistically decorated. The first to appear were six young ladies, and these in turn were followed by members of the lodge, all taking seats at the banquet table. Next to appear were the waiters. This scene was in charge of Lloyd Reid and assistants.

H. K. Chenoweth acted in the capacity of toastmaster in a most acceptable manner. All the songs were very cleverly given and all made a hit with the audience. Lloyd Williamson as surprise No. One recited a very impressive selection, "The Maniac" and as surprise number two A. L. Bromley, who had taken a place in one of the boxes in the gallery, sang a negro melody.

The Elks Big Dance Review under the direction of Miss Helen Robinson was one of the features of the entertainment. All the dances were very cleverly executed and all received hearty encores, especially was the Maxine dance by Miss Deane Obermeyer and George Vasconcellos, praise-worthy, being a dance difficult to execute.

The number of Mrs. Orear and Mrs. Gay and Billy and Jack Vickery pleased the audience greatly as well as the presentation of "Lad-die."

Too much praise cannot be given the committee in charge, Harry Obermeyer, George Vasconcellos and Byron Graff for the merits of the entertainment and the work of Robert M. Boyd is deserving of special mention. The electrical work was done by G. A. Sieber.

After the entertainment, those taking part went to the Elks club rooms where a superb course dinner was served. H. K. Chenoweth acted as toastmaster and speeches were heard from Marcy Osborne, Walter Schrag, R. I. Dunlap, Robert Boyd, Clarence Lukeman, Harry Obermeyer, Albert Bromley, Charles Hauser and Mrs. George Orear. Dancing was also enjoyed and a happy time spent.

The program follows:
First part setting—Elks banquet room, Jacksonville, Ill. Executed by Lloyd Reid and assistants.

Toastmaster—H. K. Chenoweth.
Musical director—Robert M. Boyd.
Waiters—Messrs. Geo. W. Vasconcellos, Marcy Osborne, George Orear, Otis Erney, Percy (Lasses) Cherry, Bones Albert Bromley.

SEARCH FOR HORSE THIEVES.
Beardstown Officer Visits City Sunday Night—Auto Goes in Ditch Near Old Ball Park.

Patrolman James Ooombs of Beardstown was in the city Sunday night in a search for two men who stole a white mare and buggy in Beardstown Sunday. The men started toward this city and the patrolman followed in an automobile. He got trace of them out of Arenzville and came on to this city, but could find no trace of the men on the way. Near the old ball park his automobile skidded and went into the ditch and a call was sent to Newman's garage to pull the machine out. Patrolman Ooombs returned to Beardstown about 2 o'clock Monday morning.

BIRTHDAY SURPRISE ON

A. P. VASCONCELLOS
The seventy-first birthday anniversary of A. P. Vasconcellos was the occasion of a pleasant family gathering Sunday at the residence, 324 East College street. Mr. Vasconcellos was not anticipating any special observance of the day and was considerably surprised when a company of sixteen friends and relatives from Springfield walked in and took him unawares.
Mr. Vasconcellos is one of the oldest business men in Jacksonville and friends in large number will join the family in wishing him a life of long continued usefulness. Business success is only one of the things, however, of which he may be proud, for during the many years of his residence in the city Mr. Vasconcellos has carried a high place in the regard of his fellows and has at all times practiced the virtues that make for good citizenship.

INTERESTING DEBATE GIVEN AT WINCHESTER

Forensic Contest Held Under the Auspices of the Monday Club—Personal Mentions.

The Monday club held their open meeting Monday night in the auditorium of the graded school building, a large audience being present. The program opened with a song, "Illinois" by the audience followed by several selections on the Victrola.

A debate was next held on the question: Resolved—That Environment has more to do with the moulding of human beings than heredity. The affirmative was upheld by Rev. D. H. Tooney and Prof. Henry Higgins and the negative by Dr. H. H. Fletcher and Rev. Mr. Caseley. Each side presented some very forceful arguments. The judges were John McKean, E. J. Frost, and F. H. Allen. They awarded the decision to the negative.

NOT OUTCLASSED.

An unfortunate error crept into the report of the Illinois-Milkin game that did the gallant band of Coach Harmon an injustice. The reporter had it that Milkin "outlucked" Illinois but the type had it "outclassed," which was very far from being the case. In fact there were other elements besides lack that figured in the game. It is but just that this correction should be made in favor of an eleven that played a most gallant game.

QUARANTINES CAR OF CALVES.

Henry Welborn, who resides near Alexander, has quarantined a carload of calves which he recently purchased in Kansas City. The calves are in good health, but were quarantined because they came under the ruling that all cattle shipped into the state should be isolated. Mr. Welborn first placed them in a rented field and later wrote to Springfield for permission to move them to a pasture at his farm. The answer was delayed and he recently telephoned to Springfield and received permission to move the animals.

HEARS THAT ENGLISH COUSIN DIED IN BATTLE

William Robinson's Relative Died on French Soil—Brother of Deceased Serving With Territorials.

William Robinson, who lives a few miles east of Jacksonville, received a letter yesterday and also an English newspaper telling of the death of his cousin, Private Joseph Nalton, who was killed in battle in France on the 23rd of September. The newspaper gives a picture of the young man and states that while it is known that he has been killed, that the place is not recorded. It is stated that Nalton, who was a private in the first battalion of an East Yorkshire regiment, was the first Driffield man to fall in the present war. The deceased is the second son of Albert Nalton and he has another son who is serving with the territorials at Scarborough. Mr. Robinson's letter and the paper also, were sent by his sister, Mrs. Fred North, whose home is in Malton, Yorkshire, England. The English paper, by the way, as naturally would be expected, devotes a vast amount of space to war stories and reports and there are various pictures of soldiers who have fallen in battle.

SUIT FOR DIVORCE.

Mrs. Daisy F. Reipschlag, by her attorney, William N. Hairgrove, has filed suit for divorce against William Frederick Reipschlag. They were married Jan. 6, 1904, at Sycamore, Illinois, and lived together until September 25. The defendant is accused of repeated acts of cruelty and violence toward his wife and on this ground divorce is sought. An injunction has also been asked to restrain Mr. Reipschlag from disposing of certain personal property that he has in his cigar factory.

IN JUSTICE COURTS.

William F. Reipschlag was arrested by Sheriff Rogers Monday on complaint of his wife and in "Squire Dyer's" court was placed under bond to keep the peace. Mrs. Reipschlag declared that he had made threats against her and she therefore caused his arrest. The defendant was unable to give the bond and is now in the county jail.

Miss Verna Smith of Caldwell street returned Monday from Springfield where she visited her sister, Mrs. E. H. Wildman.

CITY COUNCIL HELD WEEKLY SESSION MONDAY

Ordinance Setting Aside Water Department Funds is Killed—City to Send Delegates to Road Congress.

The city council held a brief session Monday morning. The roll call showed Mayor Davis, Commissioners Newman, Brennan and Knollenberg present.

The clerk read the minutes which were approved and then a communication signed by Mayor Carter Harrison of Chicago, inviting the city to send three representatives to the Good Roads Congress which will be held Dec. 14 to 18. Mr. Knollenberg made a motion which was seconded by Mr. Brennan that the Mayor, city engineer and the superintendent of streets attend the congress at the expense of the city. This motion prevailed, Messrs. Brennan, Newman and Knollenberg voting for it. In making the motion a suggestion was made that it would be advisable to send the representatives to the congress with a view to getting new ideas on street and road improvement.

Mr. Newman made complaint about offensive odors from the packing house plant. The ordinance introduced at the last meeting providing that funds received from the water department shall be set aside for the expense of that department and providing that after the payment of such expense that the balance should be placed in the general fund, came up for a second reading.

Mr. Brennan said that the objection he had to the ordinance was that he thought the money should be turned over every month instead of every three months. Mr. Knollenberg said that the plan was all right and that he would be in favor of adopting it at some later time but that just now on account of certain old obligations that he did not think it advisable. Mr. Newman spoke in the same vein and was in favor of taking no action.

Mayor Davis stated that he had expected the city attorney to be present with an opinion showing the necessity of keeping this fund separate in accordance with the municipal law and maintained that any property owner who wished to bring mandamus proceedings against the city could compel the city to do the very thing required by the ordinance.

Mr. Knollenberg made a motion to adopt the ordinance stating that he was doing so in order to bring the matter to a vote. Mr. Brennan offered a second to the motion and Mr. Knollenberg and Mr. Newman voted against the motion, Mayor Davis and Mr. Brennan for it. This action killed the ordinance and Mayor Davis gave notice that he would not sign warrants for an expenditure of any money while unpaid bills were remaining in the water department. He said that money for machinery and coal used in the water department had first claim and in order to maintain any credit for the city that it was necessary to pay these bills. It is a contention of Messrs. Knollenberg and Newman that all old claims should have a preference over the present ones of the water department regardless of the fact that practically all the revenue which the city receives comes from the water department. The council then adjourned.
